output

Records are made to be broken

Short design cycles and increasing numbers of colour CAD documents? The new Océ TCS300 will sprint through your wide format printing. So however tight the deadline, you'll be out in front at the finish. And your printer will be waiting for you not the other way round. Because records are made to be broken.

High-speed printing

Whether it's black & white or colour, you'll maximise your wide format output with the Océ TCS300. Speeds as fast as 40 seconds for an A0 CAD plot in monochrome and 1 minute in colour will enable you to meet your tightest deadlines.

Wide format productivity

High productivity demands more than speed alone. With the Océ TCS300 you'll save time at every stage. Thanks to powerful processing, there are no long waiting times before printing starts. While one document is printing, the next file is already processed. After printing, you can use your CAD plots directly: there's no drying time. And no trimming is needed, so your plots are ready for use immediately.

Easy system operation

Easy operation streamlines your wide format workflow. The Océ TCS300 helps users to get the results they want, with an intuitive interface, best-in-class printer driver and clear system feedback. Loading media and changing inks are just as easy, for operation that's always right first time.

CAD

'There's always pressure on time in getting our engineering documents printed. That's why we need a colour printer that doesn't keep people waiting'

Océ TCS300

Wide format colour printer for fast CAD output

Quality results

Like every Océ printer, the Océ TCS300 provides outstanding print quality, without the need for time-consuming manual settings. Thanks to the intelligent Dynamic Switching Technology, the printer chooses the optimum print strategy. So there's no need for trial & error by the operator. And with the convenient colour management module, it's easy to produce output with the colours you expect.

Return on investment

With the Océ TCS300, efficient handling of all your wide format plots is assured. Thanks to its robust design and impressive performance, the Océ TCS300 not only meets your expectations now but also ensures productive, efficient operation for years to come.

Beyond the Ordinary

Printing for Professionals

Building a sustainable business has always been one of our core business principles. We do this by developing products and services that add value to the document processes of our customers, while minimizing environmental impact. And we conduct our business activities in a socially responsible manner aimed at preventing health, safety and environmental risks.

Océ Wide Format Printing Systems Partners and Awards

Océ helps the people who make our world. Companies everywhere use Océ technical documentation systems in manufacturing, architecture, engineering and construction. Each week, high speed Océ printing systems produce millions of transaction documents such as bank statements and utility bills. And in offices around the world, people use Océ professional document systems to keep the wheels of business and government turning. Océ is also at work in publishing on demand, newspaper production, document management outsourcing and wide format colour for spectacular display graphics. It all helps our professional customers go 'Beyond the Ordinary' in printing and document management.
